About the program:

Teachers in Engineering and Science disciplines in higher education usually join the teaching profession without any formal training in teaching methodology and learning psychology. Incidentally they develop teaching skills out of their own experiences or from experiences shared by colleagues in course of their teaching career. Further, emergence of a plethora of ICT tools and their usage in Teaching-Learning Process has been redefining the role of a teacher from a mere provider of information to a facilitator of learning.

The program is intended to focus on different aspects like pre-requisites of a teacher, teaching methods, stress management research opportunities, different funding agencies, writing research proposals and ICT tools.

Course contents:

- ✓ Effective Teaching Methods
- ✓ Class handling
- ✓ Teaching/Learning Tools
- ✓ Hunger for Teaching
- ✓ Stress Management
- ✓ Avenues for Research Funding
- ✓ Research tips and Techniques
- ✓ Funding Agencies
- ✓ How to Write a Research Proposal
- ✓ Digital Initiatives in Higher Education
- ✓ Use of ICT Tools

Objective of FDP:

In the current field of teaching in higher education courses there are frequent pedagogical *shifts* in delivering contents to students. The most important changes include increased demonstration on current teaching approaches, introduction of new teaching strategies, improved spotlight on the design and delivery of courses, organization of classes, careful contents and exposure, increase in self-confidence about learning and sharing, and a more student – centered approach towards teaching. It is observed that self- unwavering student inspiration along with teacher self-sufficiency provides student greater fulfillment to students, which leads to comprehensive knowledge, better course grades and higher teacher-course evaluations. Teaching management courses effectively requires learning autonomy wherein students can develop logical path of

problem solving through chosen self-learning techniques.

About the institute:

Shri.
